Regulatory Update:

Hometown Democracy: On Jan. 30 the Florida Supreme Court rejected a motion by Hometown Democracy supporters that called for a rehearing of the Dec. 18 decision to approve the Smarter Growth petition for a constitutional amendment. The action was seen as a major win for Florida business leaders who have supported the petition, proposed by Floridians for Smarter Growth as an alternative to the Hometown Democracy amendment. The Hometown Democracy amendment would require all changes to local governments' comprehensive plans to be approved by voters. The Smarter Growth amendment would allow voters to vote on major issues by collecting petitions from 10% of the electorate. More information is available at www.Florida2010.org.

HELP ADJUST TAX ASSESSMENTS

The Lee County Property Appraiser believes that there have been serious decreases in commercial values based on 2008 market factors. However, the Appraiser's office desperately needs data on commercial income properties to determine appropriate commercial values for ad valorem tax purposes. They are now conducting a survey of market rents, vacancies, expenses and other factors needed to prepare an income-based valuation.

Questionnaires are available for all types of commercial income properties and must be provided to the Property Appraiser's office by March 31st. Questionnaires and information are available from the Commercial Dept.:

IMPACT FEE RELIEF IN COLLIER

Collier County Commissioners have approved a plan to allow developers to spread transportation impact fees over 5 years, paying 20% per year. The current structure requires developers to pay 50% of transportation fees up front and the remaining 50% on project completion. They also decided to no longer consider trip lengths when computing fees. This will result in a rate decrease of about 7% on a single family home, from \$8,247 to \$7,652. The current transportation impact fee on an office building under 50,000 sf, is \$20,074 per 1,000 square feet. Without the trip length adjustment, the fee would be \$16,763 per 1,000 square feet, a decrease of about 16.5%. The effective date of the new rate structure and fee schedule is not known. (source: *Naples Daily News*, Feb. 11, 2009)

In January, Collier County's Productivity Committee proposed that all impact fee rates be rolled back to 2007 rates and frozen through 2010. County staff further recommended transportation impact fees be rolled back to 2006 rates and frozen for 2 years. The Board of County Commissioners has not adopted either proposal as yet.
